

Wilcom ES

Wilcom is regarded as the industry leader in embroidery software and it's .EMB format is the most popular all in one file (combining stitch and vector information). Even from the entry level systems, the lettering quality is not surpassed in the industry.

Built on Wilcom's legendary quality and 25 years of experience, ES takes embroidery to a new level of professionalism. Renowned among professional digitizers for its stitch quality and ease of use.

The Wilcom ES products are positioned at the top of the embroidery design market. Amongst professional embroidery digitizers, the superiority of Wilcom products is based on the stitch quality of manufactured designs together with ES Designer's ease-of-use.

Usability has been the main theme of the ES 2006 development. The new release contains major improvements in the design and layout of the Graphical User Interface (GUI) which offer excellent productivity benefits.
